Living Water is a great place to work! Know someone who is looking for a great career?

WE are hiring and training now. use the QR code to go directly to our website.

Do YOU Love Our Service???

Your feedback is important to us, so we would like to ask you a quick favor. We would really appreciate it if you could take a few minutes to leave us a review!

Hello Living Water Family. Happy Spring!

Well, if there is anything we can predict, it's unpredictability. What is happening in the world is unpredictable. What will and won't be in stock from week to week is unpredictable. The weather (especially in Spokane) is always unpredictable. Which technician will show up and when to service your property may feel unpredictable. And now it's Lisa writing the newsletter. That was unpredictable! And no, nothing is wrong with Mike; he is doing great. We just thought we would change it up a bit.

So what is predictable? We will be out with the same great service and care for you and your property as always. We have everyone with a spray license out on a truck, that includes owners, managers, and supervisors. We so appreciate your patience as we are working diligently to get everyone's properties taken care of. Now that we have completed round 1 applications, you will be on a regular schedule from here on out. It may take us a little longer, but we will be there.

We are happy to let you know that we have five great new hires in the process of getting trained and licensed: Dustin in our pest control division, and Anne, David, Josh, and Alex in lawn and tree services. Congratulations to Anne who is fully licensed and training on her own truck. If you see them out in the field, give them a high five! We are excited about their future with Living Water.

We are still hiring. So if you know somebody who would be a great team member and love to work outside with an awesome company, send them our way. No experience necessary, just a driver's license and good driving record. 21 years of age or older. They can apply on our website: www.livingwaterlawncare.com.

Commit your work to the Lord & it will succeed - Proverbs 16:3

Commit your work to the Lord & it will succeed - Proverbs 16:3

Now let's talk about what else we can expect this spring and early summer... We can expect the weather to keep us guessing as to how much to water and when. We can expect weeds, crabgrass, insects, and fungal activity. But we can help with all of this!

By now your sprinklers should be on. And unless it rains A LOT, you should be watering your lawn a couple times a week. If the weather stays cool, it won't need as much. But it does not take too many warm days and wind to dry out a lawn. Keep an eye on your lawn daily. Just like when your body tells you it's dehydrated, your lawn will too. Weekly mowing is important as well. Your first mow

 should have been short, then slowly lift the mow height as it gets hotter. If you need more information, you can always go to our website or social media for more watering and mowing tips.

If you are signed up for crabgrass control or specialty services, those will be happening this round or as the soil temperatures get warmer. This is a great time for weed control. We will work away at those weeds with each application. We will also keep our eye out for insect and fungal activity when we visit your property, but you see it every day, so if something seems amiss, give us a call. We will work together to get and keep your lawn and landscape as healthy and beautiful as possible!

Mike and I, and the Living Water team, appreciate you choosing to partner with us for the health and enjoyment of your landscape. We do not take your trust in us lightly. While these times we live in are unpredictable, there are things that are not, like God's love, the power and hope that come with unity, the choice to encourage, be kind, and take care of ourselves and others on a daily basis. May you experience kindness and encouragement today!

With gratitude,
Lisa, Mike, and the Living Water Team

WHAT OUR CUSTOMERS HAVE TO SAY!

"The lawn technician moved all of my dog's toys out of the lawn before he sprayed and I just really appreciate the extra care he took. I forgot to move the toys and was grateful to see that he took the time to do that for us."

- Chris, Nine Mile Falls
