We would really appreciate it if you could take a few minutes to leave us a review!

Dear Friends,

For many years I have written this newsletter. Over these past 30+ years, many of you have shared kind comments and even a few newsletter miracles with me. I think it even has fans. This month our General Manager, Carolyn Dunlap, gets her second crack at writing The Venerable, Low-Tech, High-Friendship-and-Love, Living Water Newsletter. Many of you know her and have come to love and appreciate her as much as we all do at Living Water. She has grown up in this company and understands better than any of us what makes Living Water Living Water.

John the Baptist once said about Jesus, "He must increase; I must decrease." While I love that spiritually and believe it, I also see it as where my work life is heading. In the last few years, Lisa and I have moved more into the background. Carolyn has been with us over 20 years. She heads up our day to day operations. Her husband, Brian is the best production manager we have ever had. They both lead by example and love. Just so you know, Lisa and I don't intend to sell. We instead look forward to what God is doing and going to do with this 2nd generation of Living Water.

Love and blessing,
Mike

Carolyn's Corner

Hello Friends,

Trying to follow Mike will be a challenge. He has been the writer of the company newsletter since the very first time it was written. I will do my best to keep my writing fun and informative. Please bear with me. I feel like I'm getting ready to speak at a big event and all eyes will be on me.

Here is some fun news:

Many of you have called into the office and probably heard some little voices in the background. You may or may not have heard a little scream or two. This year Kaileen and Olivia were given the opportunity to have their little ones in the office while they work.

Meet Hazley (Kaileen's daughter) and Nyla (Olivia's daughter). They are the Boss Babies!

Now for some informative news:

The cooler temps are here... sort of. As I write this mid-September, my weather app says that we are going to be having 74°-88°F temps in the next 10 days, but the sun sure has been feeling hotter to me. Has anyone else felt that or is it just me? Soon summer will slip away and fall will drop right into place. As we transition into the next season, please don't forget to keep your mower height setting at 2½" to 3" until the first week of October. The lawn still needs all the help it can get to retain moisture. Speaking of moisture, please keep watering! We have a watering sheet on our website that can help guide you on best practices through this time to keep your property beautiful.

Let's not forget about the trees and shrubs. They need deep watering. The larger the tree/shrub, the longer you should leave the hose on for them. I drag the hose out in the evening to the base of my maple tree and turn the hose on to a very low trickle. I just leave it until morning. My baby trees don't require that much, so they get a couple of hours at most. Do this a few times before winter, and I think your trees will be happy.

Commit your work to the Lord & it will succeed - Proverbs 16:3

Everyone is hiring. I know you have heard it. I know you've seen the signs everywhere you go. We are still hiring too. We are looking for people who enjoy working outdoors. If you know someone who is looking for a job, please send them our way. They can apply in person or online at www.livingwaterlawncare.com/careers.

Until next time! May your day be beautiful and your heart be filled with joy. God Bless you and yours.

-Carolyn
