## Do YOU Love Our Service???

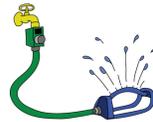

Your feedback is important to us, so we would like to ask you a quick favor. We would really appreciate it if you could take a few minutes to leave us a review!

Hello Friends and Customers!

Well, summer may finally be here. Honestly the cool weather and all the rain we received was such a great change from last year's insane heat. With the arrival of warmer weather though, it's time to make sure the sprinkler system is working. If dragging the hose around is your sprinkler system, it's go time.

None of us are used to hot weather yet. Neither is your lawn. Mow high (2.5-3 inches) for the rest of the summer, and make sure you're watering your lawn at least 4 times per week until early September, more if needed because of heat and wind. You don't want your lawn to go into drought stress, because then it is more susceptible to fungal and insect activity. Trees and shrubs should be in great shape, but they will need water as well. You should deep water them regularly through the summer. The important thing here is to help your landscape ease into warm/hot weather. Just like you and I, your lawn needs to stay hydrated.

We are seeing some "Red Thread" and Meltout fungus, but normal summer temps should clear that up. We're seeing very little active insect activity now, but expect that to change. My semi-educated guess is that we are in for a mild summer though.

Please work on being water wise. The City Council has imposed some harsh water restrictions on Spokane. Unless those who pushed this change their minds, we are going to have to get used to not using much water in our yards moving forward. If you're curious about this issue, I will post some information and facts on our website by mid-July.

Commit your work to the Lord & it will succeed - Proverbs 16:3

Commit your work to the Lord & it will succeed - Proverbs 16:3

This season we guaranteed our prices. Fuel and fertilizer are two of the most inflated products in our economy and our largest purchases. Not fun! Please help us

by unlocking gates and not rescheduling your services. Reschedules are incredibly expensive for us. Currently and for the foreseeable future, we won't be able to come back out after a reschedule until we are in that neighborhood again. Thank you for understanding.

In this season in all of our lives, perspective and gratitude are essential. Every day I remind myself of the goodness of God and the blessings around me. Now more than ever having that outlook is in all of our best interest.

Be good to others and yourself. 'Til next time. God's Richest Blessing, Mike

P.S. Know someone who would make a great technician, love to work outside, and join a fabulous family atmosphere? Direct them our way! Please! We are still in need of lawn and tree technicians. Thank you.

## WHAT OUR CUSTOMERS HAVE TO SAY!

Shout out

"We were struggling to get our lawn in good shape until my neighbors told me about Living Water. We gave them a call and got our first treatment season (spring through fall) . OMG!! What a difference! We will always have them treating our lawn, we don't have any more worries about the weeds and they pay extra attention if some areas need more seedings!

- Katia, Spokane

"Living water is by far the Best! After all these years of products and services that never worked, Living water came and sprayed weed control fertilizer on my now beautiful yard, three weeks latter they are dead and gone!!! Couldn't be more satisfied!!! Thank you!! "

- DJ
